

OMT Club Membership Card

OMT Club is pleased to announce the introduction of a payment card to all paid-up members.

What is it?

The card provides proof of membership of the Club but more importantly it will give you a reduction in the prices you pay for drinks, crisps and confectionary at the Club bar. These prices are only available on the production of a prepaid card. The card is also designed to speed up transactions at the bar.

How does it work?

The card is a pre-payment card. This means that you will need to credit it with an amount of money before using it to buy food and drinks. You will need to keep your card 'topped-up'. There is no overdraft facility! If you use cash for your purchases, you will not receive the discounted prices.

How do I add credit to my card?

When you first receive it, present the card to a member of the bar staff. Let them know which section you belong to (Sports Section, Social, Staff, MTNesters etc.). Tell them how much money you want to place on the card. We suggest a minimum value of £20 in the first instance. Please try to do this during a quiet period.

How do I pay for my purchases?

When you want to buy something from the bar, tell the staff that you have a Membership Card (they will probably ask you first anyway). Order your drinks etc. and give the staff your card which will then be debited with the discounted amount. You will receive a receipt with your order showing the opening balance, new balance and order value.

Rules (sort of)

The price reduction does not apply to the purchase of bar snacks.

If you do not have your card with you, you can still make purchases at the bar, but you will not receive the discounted rates.

If you lose your card, there will be a £5 administration charge. New cards can be obtained from the Membership Secretary.

Please sign your card when you receive it.

Minimum upload value after initial set-up is £10.

Other stuff

No personal data is stored on the card, only your name and membership number.

All balance information is stored on the bar till computer.

This is a new system for the Club - we welcome your observations and comments.
